Children's Privacy

Our website does not contain content directed at children under the age of 18.

Use of Cookies

The Company may obtain some of the aforementioned personal data by using a technical communication file (Cookie). These technical communication files are small text files that a website sends to the user's browser to be stored in the main memory. A technical communication file facilitates the use of the Internet by storing status and preferences about a website. The technical communication file helps to obtain statistical information indicating how many people use the website, for what purpose, how many times a person visits the website and how long they stay, and dynamically generates advertisements and content from user pages specially designed for users.

WEBSITE PRIVACY POLICY

The technical communication file is not designed to retrieve data or any other personal data from the main memory or e-mails. Most of the browsers are initially designed to accept the technical communication file, but users can change the settings so that the technical communication file does not arrive or a warning is given when the technical communication file is sent. Any defective work resulting from this setting change should not be attributed to us.

The cookies used on the website are as follows:

- Names of other sites visited while on the site
- Words used to find the website
- Name of the Internet service provider
- IP address and/or location
- The operating system of the accessing computer
